At the General Assembly in April 2004, the FEI approved¹ the use of altrenogest (e.g. Regumate) for oestrus suppression in normally cycling mares competing in FEI competitions. The following conditions apply:

1. Altrenogest is only permitted in mares;
2. The manufacturer's recommended dose of altrenogest and duration of treatment for oestrus suppression must be followed;
3. Medication Form 2 must be completed, signed and approved by the Veterinary Commission/Delegate.

N.B. The manufacturer's contra-indications and warnings etc. must be noted and understood before using altrenogest.

Horses will be tested for the presence of altrenogest.

¹ This authority is subject to regular review by the FEI.
